SAILING IN AIR
AND UNDER WATER

Airships, Submarines and Autobots
Being Tested in France.

NAVY INTERESTED IN RECENT BATTLE

Use of New Type of Warships Attracts
Widespread Attention—Airships Mak-
ing Successful Ascents—Attempts
With "Heavier Than Air"
Machines.

Paris, June 10.—The first airship to make a successful ascent this year was the Lebaudy XIX., which rose Sunday at Moisson. M. Juchmes was steering. Others aboard were Captain Bouttiaux and Captain Boyer, whom the Minister of War has delegated to study the new model in view of its possible utilization for military purposes.

Ernest Archdeacon and Gabriel Voisin express great satisfaction with the results of the trial of their aeroplane at Billancourt Thursday, which, with the impetus supplied by a tug, rose 25 metres above the surface of the Seine and traveled 300 metres. It fell to the surface of the river when the towline was cut.

The new aeroplane has a superficial area of 60 square metres.

The Prince of Monaco made a further statement to the Academy of Science this week regarding the heavier than air flying machine invented by M. Leger, in which the ascensional power is mechanical. The experiments continued with a half sized model. First laden with a ten horse power motor, it rose so rapidly that it broke the eight ropes holding it to the ground. Finally a twelve horse power motor raised 200 pounds, when the experiments had to be interrupted owing to one of the pieces of the mechanism bending.

M. Leger concludes from the experiments that his large apparatus will raise a thousand pounds, plus the weight of the machine, and the aeronaut and fuel during a flight of one hour.

OTHER ATTEMPTS.
The aeroplane constructed by M. Ernest Archdeacon and Gabriel Voisin, was tried yesterday at Billancourt. The aeroplane was placed on a raft and attached to the autobot Larapierre M. Voisin being seated alone in the center of the apparatus.

At a signal the autobot was started at top speed, and the aeroplane rose. M. Voisin then disconnected the aeroplane from the autobot and made a journey of about three hundred metres, at an altitude of twenty-five metres above the river, finishing by bringing the machine gently to the surface of the water. The programme of the experiment was thus fully carried out.

This seems to mark a distinct step forward in the "heavier than air" problem.

For the purpose of scientifically exploring the atmosphere, Comte de Castillon de Saint-Victor made an ascent Wednesday in his balloon, Centaure, taking with him M. Joseph Jaubert, director of the municipal observatory of Paris, and Dr. Joly. At an altitude of 3,600 meters the minimum temperature of two deg. cent. (36 deg. Fahrenheit) was registered. The party descended at Marguery, near Vaux, at half-past 1 in the afternoon.

Otherwise aerostatic ascents were made on the same day from Berlin, Strauburg, Barmen, Munich, Vienna, Zurich, Rome and Tappe.

INTEREST IN SUBMARINES.
The announcement that the Japanese used submarines in the battle of Tsushima has caused great interest in French naval circles. The experiments carried out at Toulon this week are regarded as showing that the French submarines and their crews are the best in the world. Five submarines manoeuvred below the surface in a comparatively small area, six torpedo boats being detailed to keep close watch.

The weather was fine and the sea particularly clear, in spite of torpedo boats failing to locate the submarines. The result is all the more satisfactory as the five submarines include the Gustave Zede and the Gymnote, two of the first built in France.

Remarkable Suit for Damages.

Edinburgh, June 12.—Lord Pearson is engaged in hearing a remarkable suit for \$25,000 damages, the claim having been filed against the trustees of a Mr. Robert Easton, of Glasgow, who died in an asylum. The plaintiff is Miss Mary Scott Liddell, a school teacher of Dundee. Mr. Easton was a man of independent means and they were engaged to be married. Letters have been produced showing that Mr. Easton was worried because he had deceived his intended through not telling her that he had at one time been an inmate of an insane asylum. This appeared to have preyed upon his mind and three days before the date fixed for the wedding he was again taken to an asylum, remaining there until he died. So far as known, however, this is the first case in Scotland in which the trustees of the estate of a dead lover have ever been sued.

Trespass Notice.
All persons are hereby warned not to trespass in any way on my lands situated on the headwaters of Clear Fork. I will enforce the law against any person who violates this notice. J. Floyd Gillespie. Sept. 22nd, 1904.

CHINA BOYCOTTS AMERICAN GOODS.

Outlook for This Country's Manufacturers
Said to Be Very Gloomy—President
Takes Matter to Cabinet.

Tien Tsin, June 13.—The boycotting of American goods by the Chinese guilds is daily assuming more serious proportions. The guilds have quietly determined to carry the boycott through and the aspect for American manufacturers is rather gloomy. The native newspapers are refusing advertisements of American goods.

Washington, June 13.—At today's cabinet meeting the president took up with Secretary Metcalf, of the department of commerce and labor, the protest filed with him by members of the American Asiatic Association against what they regard as the harsh enforcement of the Chinese exclusion law. Both the president and Secretary Metcalf are anxious to do all in their power to promote the export trade of American manufactures and, with that end in view, they will take up this subject of the admission to this country of the Chinese except classes in a definite way.

Representatives of the cotton textile industry are apprehensive lest the reported action of some of the immigration officials may result in a boycott by Chinese merchants of American-made cotton goods. Secretary Metcalf proposes to inquire into the subject to ascertain what, if anything, may be done to eliminate what the Chinese regard as abuses of the exclusion law. It is suggested, however, that the subject is one which necessarily will have to be dealt with by congress and not by the government. Secretary Metcalf expressed the opinion at today's meeting that the law was not enforced with unnecessary harshness. The necessity of close scrutiny of the certificates presented by persons representing themselves to be of the exempt classes was pointed out by the secretary, as many of such certificates are fraudulent. The secretary indicated that during the present fiscal year, 73 Chinese, bearing students' certificates, had applied for admission and that 71 of them had been admitted. The other two were debarred by disease.

Secretary Wilson informed the president that he was pressing his investigation of the charges filed with him that a leak had occurred in the cotton crop reports issued by the agricultural department, but he yet had been unable to develop proof to sustain the charges. The agent of the secret service and others who are making the investigation have been instructed by Secretary Wilson to leave no stone unturned in their inquiry.

Town Election.

The town election, for mayor recorder and councilmen, was held on Tuesday, the 13th inst. The Democrats had a regularly nominated ticket, and certain Republicans had announced themselves as candidates, as follows: Dr. C. W. Grever, for mayor; J. P. Harman for recorder; and W. B. F. White and B. F. Lewis for councilmen. The solid Democratic ticket was elected with one exception, W. B. F. White, winning out as a member of the council. The following is the official vote:

FOR MAYOR.	
E. V. Spotts	60
C. W. Grever	43
FOR RECORDER	
T. A. Repass, Jr.	52
J. P. Harman	49
FOR COUNCIL	
J. T. Helderth	85
J. W. Chapman	83
J. H. Crockett	66
Henry Hampton	52
A. St. Clair	67
Geo. W. St. Clair	62
W. B. F. White	69
B. F. Lewis	48

THE SAFE WAY OF
SAVING YOUR MONEY

Facilities Offered By the American
National Bank of Graham,
Virginia

Your money is safe only when it is safely invested. Burglars can annoy you, bad loans may cripple you, speculations may ruin you. The American National Bank of Graham, Va., is safe, because it is governed on a conservative basis, because it is a National Bank, and regularly examined by the United States Government. It holds your money where you can get it, and without danger of loss. People who intrust their money to a bank want to know something of its financial strength. We fully recognize this right, and gladly furnish depositors with a list of our directors and stockholders. Then from time to time we publish reports showing the condition of the bank, copies of these reports are kept and handed those who wish to see them. The officers of this institution keep in touch with every detail of the business; by so doing they are enabled to handle the affairs of their patrons quickly and satisfactorily. Customers have a right to expect that their banking business will be treated as confidential; this we do, and we also aim to protect their interest in every legitimate manner.

Many persons keep their money in this bank that they may have it within ready reach when needed for daily use, some keep it here awaiting opportunity for investment, others to avoid the risk of annoyance of loaning it, others keep it as a permanent investment on which they receive interest. It will therefore be seen that we accommodate all classes of people.

We solicit the accounts of corporations, firms and individuals, and offer splendid advantages for all commercial banking business, and pay three per cent. interest on all savings accounts.

THE AMERICAN NATIONAL BANK,
Graham, Va.

Roosevelts Rusticate in Woods of Virginia

Richmond, Va., June 10.—In the depths of the woods of Virginia President Roosevelt this morning ate a breakfast cooked by the first lady in the land—his wife. The distinguished pair spent yesterday afternoon and a portion of the evening at "Plain Dealing," the home of W. N. Wilmer, from whom Mrs. Roosevelt purchased her cottage home a few hundred yards distant. After dinner President and Mrs. Roosevelt, all unattended, went to their modest home and there spent the night. Unguarded and without a human being anywhere near them, they slept very soundly.

Early this morning Mrs. Roosevelt arose, leaving the head of the nation reposing peacefully above, and went down to the kitchen to prepare breakfast. She found an oil stove in the kitchen, but not a match was to be had. The President being no smoker did not have a lucifer anywhere about him. However, one of the ubiquitous negroes passed along and in a little while the necessary fire had been obtained.

What the President and Mrs. Roosevelt ate for breakfast is not known, but the meal is said to have been simple and democratic.

After their repast the President and his wife wandered around admiring the scenery. Later they went over to the home of the Wilmers, where the President spent a portion of the day inspecting Mr. Wilmer's thoroughbreds. Their only caller during the day was S. R. Gault, postmaster of Scottsville.

Bring your job work to the Republican office if you want it DONE RIGHT.

WHAT is more refreshing after a hot and sultry day than a cup of iced tea, provided it is GOOD TEA, and this it will always be if you use our LADIES CLUB BRAND. One trial will prove the truth of our claim. It is packed in air tight tins weighing 1 pound each, and sells for 50c a tin. We hope you will try a package of this tea with your next order.

BUSTON & SONS
LEADING GROCERS

NORWEGIANS SAY
WON'T RETREAT

Never Recede From Present Attitude—
If war Comes, Will be Prepared.

MEN READY TO SHOULDER GUNS

Should Situation Warrant It—Popular
Feeling of Country Favors a Republic
—Believed Sweden Will Finally
Yield.

Christiania, Norway, June 10.—A remarkable calm, accompanied by stern determination, pervades Norway. Beyond the display of the new Norwegian flag from the buildings in Christiania and portraits of the provisional governors in the shop windows, which attract small crowds, there are no visible signs here that Norway is in the throes of a revolution. Norwegian and Swedish merchants continue business uninterruptedly. The officials here express confidence that Sweden finally will accept the situation. While, however, determination is evident, everywhere intense anxiety is apparent, and the members of the cabinet are extremely busy in organizing the new government and providing for eventualities. Every Norwegian, apparently, is ready to answer a call to arms should the situation warrant it.

A member of the cabinet, who was interviewed by the Associated Press today, said that the Norwegians never would recede from their present attitude. It was not expected, he said, that Sweden would declare war, but in that event, he added, Norway would be prepared.

Regarding the danger of Russian and German aggression against the two countries in their separated state, the minister declared that the union was not strong enough to prevent aggression by these powers and that there is no reason to suppose they are more covetous now than before the separation. Norway depended on England to prevent such encroachment, he said, and Norway is perfectly willing to enter a defensive alliance with Sweden and Denmark. The minister said that popular feeling of the country favored a republic and expressed the hope that the United States would be the first to recognize the new government.

Monument Unveiled.

Norfolk, Va., June 10.—The monument erected by the Bethel Monument Association marking at Bethel, in York county, Va., the place of the first conflict between the federal and confederate troops in the civil war was unveiled today in the presence of a large crowd of ex-confederates from Virginia and North Carolina and others. The monument was unveiled by Miss Maggie Tabb, of Virginia, and Miss Fannie Kyle, of North Carolina, and the unveiling address made by General W. R. Cox of the latter state. Other addresses were made by Governor Montague of Virginia, J. Bryan Grimes, secretary of state of North Carolina, represented Governor Glenn, of that state, who could not attend, and Rev. E. Pendleton Jones, of Hampton, Va. The monument was presented by W. C. L. Taliaferro to the ladies of Magruder Chapter, Daughters of the American Revolution, who are to care for it and the acceptance for the Daughters was by W. E. Goffman, of Virginia. In addition to the monument proper a marker was unveiled on the spot where fell Henry A. Wyatt of company A, First North Carolina Volunteers, who was the first confederate to lose his life in battle in the civil war.

OPPOSED TO
THE CONFERENCE

United States and Great Britain Turn
Down Request of Sultan
of Morocco.

IN ACCORD WITH FRANCE

Do not Believe International Conference
Would be the Best way to Promote Ur-
gent Reforms in Morocco.

London, June 13.—Great Britain, as one of the powers signatory to the Madrid convention of 1880, in answer to the request of the Sultan of Morocco to join an international conference for the consideration of the Moroccan question, has announced that its preference is not to take any part in the conference unless such action would be satisfactory to France.

The United States has taken the same stand, the two powers being in accord with France that such a conference would not be the best way of promoting urgent reforms in Morocco.

Morton Installed.

New York, June 10.—The installation of Paul Morton, Secretary of the Navy, as head of the Equitable Life Assurance Society was auspiciously attended today by the prompt acceptance, as members of the new board of trustees of the Hyde estate stock, of former President Grover Cleveland and George Westinghouse, Justice Morgan O'Brien, the third member of the board having already accepted. Mr. Morton also received assurances of full approval of his selection as chairman of the board of directors from August Belmont and Brayton Ives, the latter of whom, after resigning from the board, wrote to Mr. Morton to explain his action and tendered the assurance of his wishes for his success.

The new chairman spent the greater part of the day in conference with President Alexander and other officials of the society. He will not enter on the active discharge of his new duties until after his resignation as Secretary of the Navy on July 1.

In an interview today regarding his plans for the reorganization of the society, Mr. Morton said he intends to consider first of all the interests of the policy holders. The interests of the policy holders are the greatest interests and it would seem to me that no policy leaving this fact out of consideration can succeed.

WATCH STOLEN.

A few weeks ago I had a watch stolen from my store at Doran, Tazewell, Co., Va. The movement is as follows: 12004977, P. S. Bartlett, Waltham, Nickel, 17 Jewels. The case is a crescent, nickel screw, bevel and solid back, with swinging movement, ring and dust proof nut on stem. I will give a reward of \$10.00 to any one who will return the watch to me. R. W. SHREVE, Doran, Va. June 15th

SPOTS

IN this age of adulteration and inferior goods, when a grocer is fortunate enough to chance upon an article of merchandise which proves acceptable to all who use it, it makes him glad.

We are selling a brand of flour of which this is true.

It is the only flour of which we have never had a complaint, and which as far as we can tell merits all the requirements of the most exacting housekeeper.

It is called "IDEAL" and we honestly believe that, for every purpose it is just what its name claims for it and is strictly ideal. TRY IT.
